Smart City Road Construction

Transport Malta

# Smart City Malta

## The Concept:

❑ This project is being proposed in conjunction with the construction of the dual carriageway two lane road which from Fgura will lead to SCM. It consists of the resurfacing of a number of roads in the Cottonera Area bordering the SCM development.

❑ Resurfacing will be localised and according to need, whilst it is being envisaged that the length of roads to be resurfaced is as follows:

Triq Santa Liberata, Kalkara: 850m

Triq il-Missjoni Taljana & Triq il-Marina, Kalkara: 1800m

Triq San Dwardu from Bieb is-Sultan to Triq Santa Liberata, Bormla: 285m

Triq San Dwardu from Triq Santa Liberata to Pjazza G Gulia, Bormla: 750m

Triq il-Labour and Triq il-Mina ta' Hompesch, Zabbar: 625m

❑ Works in two phases will have a cost of : **€1 million**

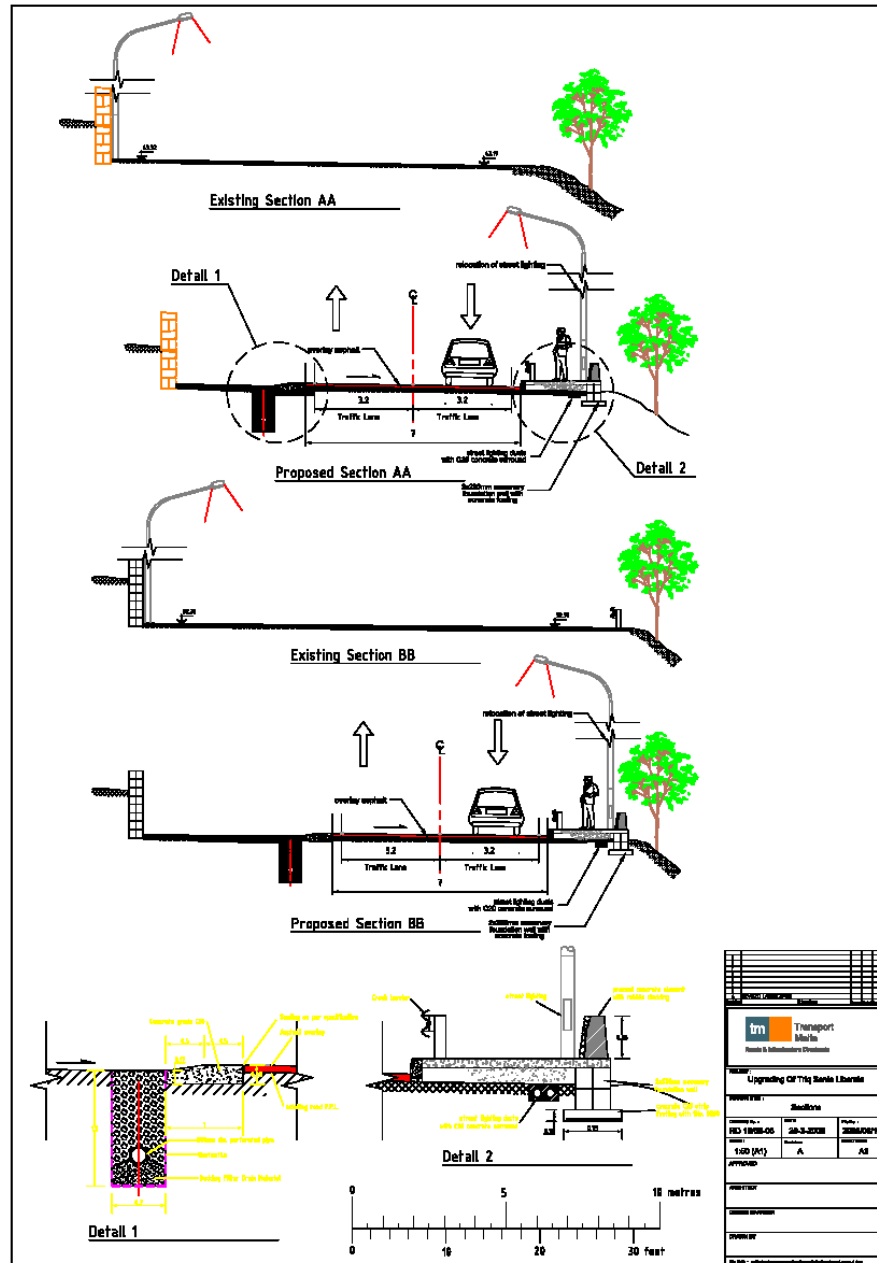

❑ Commencement of works: **July 2011**
